Boarding Schools 1971-2002

Boarding Schools 1971-2002

by Sándor Szlovák

It has never been easy to create new educational institutions in a small town, to preserve knowledge, integrity, loyalty and faith – the pillars of education – even in the time war. It has not become easier, still outstanding figures, teachers and students of the past make us to believe that it does worth it.

This boarding school has always been a special institution of education releasing many great minds to the nation of Hungary.

Through the years this boarding school had many enthusiastic local patriots whose sacrafice and enthusiasm helped to accomplish ‘ genus loci’. The protective spirit of the place has been charged among these walls thanks to such wonderful town people.

Imre Bognár Szabó – Deputy Head, county consultant
